

1. Assign GA to Print Tools- Print Image. Save and close file

2. Copy UserHotkeys file to a different location and open it with Notepad

- 3.

C > Documents > Chief Architect Premier X12 Data > Hotkeys

| <input type="checkbox"/> Name                   | Date modified    | Type          |
|---|------------------|---------------|
| <input checked="" type="checkbox"/> UserHotkeys | 22/01/2021 21:56 | XML Document  |
| <input type="checkbox"/> UserHotkeys.xsd        | 08/06/2020 18:44 | XSD File      |
| <input type="checkbox"/> UserHotkeysBackup      | 18/01/2021 21:06 | Text Document |

4. Browse to command 114 and it is the middle character in place of <g> is what I am after

UserHotkeys - Notepad

File Edit Format View Help

```
<command>
  <id>114</id>
  <keyCodes>g</keyCodes>
</command>
```

- 5.
